

Outreach Education Training

ABC Stabilisation & Safe Transport of the Critically ill child

AIM: To support hospitals in the stabilisation, preparation and transportation of critically ill children both within and between hospitals.

NMBI CEUs 6.5 & CPD 6

LEARNING OUTCOMES:

On completion of this programme participants will:

- Have a better understanding of the importance of adequate stabilisation of children prior to transport
- Gain a better understanding of the importance of preparation and packaging of the patient
- Understand what is meant by “time critical” transfers
- Understand the importance of good communication and documentation in the transport environment
- Have a greater knowledge of the ambulance environment and resources available

FOR WHOM: Medical and nursing staff involved in the transfer of critically ill children (Paediatrics, ICU, E.D.)

FACILITATOR(S):

Consultant in Intensive Care and Retrieval Medicine
Programme Manager NTMP
National Paediatric Retrieval Coordinator (IPATS)

PLACES AVAILABLE: max 24 places

PROGRAMME DURATION: 1 Day Programme (8 hour day)

PRE-REQUISITES: Participants must have basic life support skills, or ACLS, PALS, PILS, APLS, or equivalent course
